

## Beginner Level Assessments

### Task 2

1. In the file "cronologia.html" write the content as a two column table.
2. In the "index.html" file, organize it with divisions (or semantic elements). For example:
  - Put the logo and initial list inside a header element
  - Put the initial list inside a navigation element
  - Put the footer inside a footer element
  - Put the content inside a main element
3. Use the developer's tools in your browser to inspect the area of the various divisions/elements you just added
4. After the paragraph "Tim Berners-Lee...", put the image in the file "images/tim.jpg" and use the alt attribute.
